Subject: As per today's meeting

David, the data I requested from RRC (Craig Pearson), was for the daily rates and pressures for the DFW North A1DM disposal well for the last several months (since 9-30-14). I spoke with him on 1-9-15 and he said he would call me back after talking to Milton Rister. I have yet to hear from him. We appreciate any assistance you could provide in acquiring this data.
